

Museum Stories
December 30, 2020

Chul Hyun Ahn, *Dots*, 2019, Edition 1/3, Plywood, lights and mirrors, 43.5 x 43.5 x 5.75 in., Collection of the artist, Courtesy of C. Grimaldis Gallery

This week, Museum Stories highlights bright lights in the museum and twinkling lights in the sky. Take a few minutes to watch the short video.

LOOK

This artwork, called *Dots*, by South Korean artist Chul Hyun Ahn is made of colorful circles. How many circles can you count? What colors do you see? *Dots* is a shadow box. It is a shallow container with tubes of lights that change colors. There is a mirror behind the lights. The mirror and lights make it seem like the dots are moving through space.

READ

This week, the recommended book is the always favorite, *Twinkle, Twinkle Little Star*, illustrated by Yu-hsuan Huang. The dots in the shadowbox artwork of Chul Hyun Ahn glow and vibrate with brightness like the stars in the sky. This version of the book, with pop-up features, will be a fun sing-along moment for all.

MAKE

Visit the website for a downloadable coloring and counting worksheet inspired by *Twinkle, Twinkle Little Star*.
